Reviews

This type of publication is every thing and helped me seeking ahead and much more. It usually fails to charge too much. It is extremely difficult to leave it before concluding, once you begin to read the book.

This fall we are suggesting that the teachers or principals choose subjects that it might be impossible to take up at school, such as the recognition of common trees, fall wild flowers and weeds. In these talks material in limited quantity can be given to the classes to take back to their schools for further study. Common garden vegetables is another topic we would suggest, but only in those schools where the children have little chance to garden and so do not know much about vegetables. In schools where the children have gardens and feel that they are well acquainted with such material, it might be well if such a topic were given, from the standpoint of botany, taking up a little of the history of the vegetables and exactly what botanical part of the plant is edible. Blank cards...
